*Biltmore Farms HomesSM is a platinum member of the Western North Carolina Green Building Council (www.wncgbc.org), which administers the HealthyBuilt Homes program. This statewide, voluntary green building program examines all aspects of the construction process from site issues, the building envelope, heating and cooling systems, to appliances, lighting and interior air quality. Biltmore Farms Homes is focused on this program in a continuing effort to refine and improve our building procedures while being sensitive to the environment in which we live. The above asterisked items are included features that contribute to our commitment to the HealthyBuilt Home program.

Biltmore Farms Homes reserves the right to change any part of our included features or options anytime at the discretion of the builder, availability of material, plan changes, etc. 7.14.09
